FRGP Fish Screens (SC)	27
FRGP Private Sector Technical Training and Education(TE)	28
FRGP Water Conservation Measures (WC)	30
FRGP Water Measuring Devices (WD).....	32
FRGP Water Purchase (WP)	33
FRGP California Coastal Salmonid Restoration Grants Peer Review Committee (PRC)	35

Administrative Review

FRGP staff will conduct an administrative review on all hard copy proposals submitted to 830 S Street. The on-line application process has the administrative review built into the program, therefore staff admin review won't be done. The staff administrative review will determine if the proposal package is complete and meets all the requirements for submission in the 2014 PSN. If the proposal does not pass the administrative review, the proposal will not be considered further for funding this year.

	Yes	No
1. Proposal submitted by the 2014 PSN deadline (March 17, 2014, by 5 PM). (All project types.)		
2. FRGP 2014 Application Form was used (instead of the on-line application process). (All project types.)		
3. Applicant is a public agency, Indian tribe, or certified nonprofit organization. (All project types.)		
4. Submitted 5 paper copies and 1 CD. (All project types.)		
5. Proposed project is within the 2014 PSN focus. (All project types.)	Species criteria	
	Geographic criteria	
	Project type criteria	
	Recovery criteria	
6. Project Description is sufficiently detailed as described in Part IV of the 2014 PSN. (All project types.)		
7. Budget is sufficiently detailed, a) without lump sums or b) lump sums detailed on separate budget; as described in Part IV and Part VII of the 2014 PSN. (All project types.)		
8. Design Plans included. (Project Types: FP, HB, HI, HS, HU, SC, WC, WD)		
9. Existing Condition Sketch included. (Project Type: PD)		
10. Project Location Topographic Map included. (Project Types: All project types except AC, OR, PI)		
11. Watershed (or County) Map included. (Project Types: AC, EF, HU, MD, MO, OR, PD, PI, PL, RE, TE, WD, WP)		
12. Provisional landowner access agreement is a) included and b) signed. (Project Types: FP, HB, HI, HR, HS, HU, MD, MO, PD, PL, RE, SC, WC, WD, WP)	a)	
	b)	
13. Water Right Verification included. (Project Types FP, HB, SC, WC, WD, WP)		
14. Photographs of proposed project site are included. (Project Types: FP, HB, HI, HR, HS, PD, RE)		
15. a) Fence Maintenance Plan and b) Riparian Restoration Plan are included. (Project Type HR)	a)	
	b)	
16. Quality Assurance and Quality Control Plan included. (Project Type: MD, MO)		
17. Evaluation Plan included. (Project Type: EF, TE)		
18. Five year management plan included. (Project Type: RE)		
19. a) Training Curriculum and, b) Description of protection issues. (Project Type: EF)	a)	
	b)	

Comments:

FRGP Cost Analysis Evaluation

Evaluation of project cost analysis will include the following:

- Comparison of wages, equipment rates, material costs, and other project costs for similar completed and proposed project work within similar geographic regions.
- Review of labor costs identified by Department of Industrial Relations General Prevailing Wage Determinations (<http://www.dir.ca.gov/dlse/dlseWagesAndHours.html>), Davis-Bacon labor rates (<http://www.access.gpo.gov/davisbacon/>), and recent California Employment Development Department wage data (<http://www.labormarketinfo.edd.ca.gov/>).
- Review of regional equipment rental cost information (including the most current version of California Department of Transportation's (CalTrans), *Labor Surcharge and Equipment Rental Rates* publication (<http://www.dot.ca.gov/hq/construc/equipmnt.html>)).
- Restoration costs, labor requirements, and production rates identified in Appendix I of the *Recovery Strategy for California Coho Salmon*, DFG 2004
http://www.dfg.ca.gov/fish/documents/SAL_SH/SAL_Coho_Recovery/ReportToCommission_2004/22.I_CostAndSocioeconomicImpacts.pdf

Cost analysis evaluation will consider project logistics (e.g. site remoteness, accessibility, coordination required with multiple land holdings), review of production rates/labor requirements in the regional area, and benefit to the recovery of anadromous salmonids.

FRGP Cost Share Scoring Matrix

Proposal#: _____ Project Type: _____ Region: _____ Reviewer: _____ Date: __/__/__

Proposal Name: _____

$$\% \text{ Soft Cost Share} = (\text{Soft Cost Share} / \text{Total Project Cost}) \times 100$$

$$\left(\frac{\text{_____}}{\text{_____}} \right) \times 100 =$$

$$\% \text{ Hard Cost Share} = (\text{Hard Cost Share} / \text{Total Project Cost}) \times 100$$

$$\left(\frac{\text{_____}}{\text{_____}} \right) \times 100 =$$

Cost Share

1. Cost share not suitable: projects, personnel, or supplies and equipment previously funded by CDFW; resources expended prior to the term of the grant; salaries of permanently funded employees working for the CDFW or NOAA Fisheries; mitigation funds; cost share funds that will not be confirmed by February 1, 2015.
2. Hard cost share: All hard cost share must be Non-Federal sourced money or in-kind contributions which do not come from a Federal source. Hard cost share can be provided by the applicant and/or the applicant's partners involved in the implementation of the proposed project confirmed prior to August 15, 2014.
3. Soft cost share: All soft cost share is Federal sourced money or in-kind contributions which come from a Federal source. Soft cost share can be provided by the applicant and/or the applicant's partners involved in the implementation of the proposed project. The following in-kind contributions can only be counted as soft cost share regardless of funding source: administrative overhead or the components of administrative overhead (as described in Part IV page 30); **and** cost share funds that will be confirmed after August 15, 2014 up until February 1, 2015.

Cost share scoring matrix:

% Soft	% Hard										
	90-99 %	80-89 %	70-79 %	60-69 %	50-59 %	40-49 %	30-39 %	20-29 %	10-19 %	5 - 9 %	0 - 4 %
90-99 %	0	0	0	0	0	0	0	0	0	0	0
80-89 %	0	0	0	0	0	0	0	0	0	0	0
70-79 %	0	0	0	0	0	0	0	0	0	0	0
60-69 %	0	0	0	0	0	0	0	0	0	0	0
50-59 %	0	0	0	0	0	0	0	0	0	0	-0.25
40-49 %	0	0	0	0	0	0	0	0	0	-0.25	-0.25
30-39 %	0	0	0	0	0	0	0	0	-0.25	-0.50	-0.50
20-29 %	0	0	0	0	0	0	0	-0.25	-0.50	-0.75	-0.75
10-19 %	0	0	0	0	0	0	-0.25	-0.50	-0.75	-1.0	-1.0
0 - 9 %	0	0	0	0	0	0	-0.50	-0.75	-0.75	-1.0	-1.0

CDFW Engineering and GeoTechnical Level Review

Fisheries Restoration Grants Program

Fisheries Engineering Program Staff

Project:	YES	NO	N/A
1. Is the project described thoroughly enough to determine how effectively the project is likely to perform or whether the project is likely to meet the stated goals of the project?			
2. Does the Intermediate or Conceptual Plan Report outline the set of conditions, needs, and requirements taken into account in designing the project and are the plans ≥ 65 percent plan development for these project categories? NOTE: If the design plans lack this level of information it should not be considered for funding at this time. See comments below.			
3. Given the background information and/or data available, is the solution appropriate to the problem and does the project design match the stated goals?			
4. Does the project team have the experience or compliment of expertise required for project success (e.g., demonstrated experience on similar projects; technical expertise appropriate to the project; communication, coordination and logistical capabilities)?			
5. Has the project proponent participated in technical training that is likely to contribute to project success (e.g., fish passage seminars, hands-on bioengineering or erosion control workshops)?			
6. Is this project likely to require future consultation or evaluation of a conceptual plan as it is being developed (e.g., a fish passage barrier removal project that includes a fish ladder for which only a conceptual plan is provided)? If YES, is this consultation reflected in the project time line and budget?			
7. Is the project likely to require the participation of a licensed engineer or geologist? If YES, does the project team include this expertise? Is the licensed professional identified?			
8. Are subcontractors identified?			
9. The proposed project design/plan is lacking vital information and should not be considered for funding at this time. See comments below.			
Comments/Questions:			

Coho Salmon/Steelhead Specialist Technical Review

Fisheries Restoration Grants Program

Proposal#: _____ **Region:** _____ **Date:** _____

Proposal Name: _____

Reviewer: _____

	Yes	Maybe	No
The proposal <u>as written</u> addresses the identified Recovery Task and can accomplish the Task in part or in whole.	0	-0.5	DNF

Explanation (how the result was determined):

The following definitions are used when making a determination.

Yes = Proposal clearly addresses the identified recovery task and the project, as described in the proposal, can accomplish the task partially or completely.

Maybe = There is some doubt as to whether the project, as described in the proposal, can accomplish the identified recovery task.

No = The proposal as described does not address the recovery task identified and will not accomplish the task in whole or in part. Or the task identified does not relate to the project as described in the proposal. Do Not Fund (DNF).

FRGP Americorps (AC)

Proposal#: _____ Region: _____ Reviewer: _____ Date: ___/___/___

Proposal Name: _____

Scientific and Technical Review

Initial score is 5. Points are deducted when the proposed project does not correspond to or meet the intent of the PSN. Final score range: 5 (High) to 0.

	Circle one			
	Yes	Med	Low	No
1. Proposal demonstrates the project proponent/organization has the qualifications, experience, and capacity to perform the proposed tasks (including subcontractors). Yes = Appropriate level of expertise and/or successfully completed previously funded grants, Med = lacks some expertise, some problems with successful completion of previously funded projects, and/or named subcontractors not appropriate for work, Low = lacks a lot of expertise and/or many problems with successful completion of previously funded projects, No = unqualified, problematic subcontractors, persistent problems with completing funded grants, and/or uncooperative.	0	-0.5	-1	-5
2. Project description includes required details necessary to write a statement of work for the grant agreement. Yes = narrative clear and comprehensive, Med = some clarity needed on activities to be done, Low = Activities proposed are inadequately described and more clarity needed, No = narrative general and/or a list of activities with no detail.	0	-1	-2	-5
3. Project budget is appropriate to the work proposed, is cost effective, and sufficiently detailed to describe project costs. Yes = budget is detailed, accurate, appropriate, and cost effective, Med = some budget detail is needed, a few inaccuracies, and 1 or 2 unspecified lump sums, Low = more than 2 unspecified lump sums, lacks detail, many inaccuracies, and/or includes inappropriate costs, No = Many unspecified lump sums, insufficient detail, inaccurate, and/or not cost effective.	0	-1	-2	-5
4. Supplemental information is sufficient as described in PSN Part V & VI. Yes = all supplemental information is sufficient, Low = one or more pieces of supplemental information are insufficient, No = all supplemental information is insufficient.	0		-1	-2
5. Degree to which the proposal describes placement across the entire FRGP area. Yes = all 4 CDFW regions, Med = 3 regions, Low = 2 regions, No = 1 region.	0	-0.5	-1	-1.5
6. Degree to which the proposal adequately describes the process by which outreach is conducted and corps member sites are selected. Yes = Clear description and extensive outreach, Med = lacks some detail and some outreach, Low = unclear how outreach conducted or how process works, No = no description.	0	-0.25	-0.5	-1
7. Level of cost share (from matrix).				
8. Coho Salmon/Steelhead Specialist Technical Review results.				

Final Score (lowest score possible = 0): _____

Enforcement and Protection (EF)

Proposal#: _____ Region: _____ Reviewer: _____ Date: ___/___/___

Proposal Name: _____

Scientific and Technical Review

Initial score is 5. Points are deducted when the proposed project does not correspond to or meet the intent of the PSN. Final score range: 5 (High) to 0.

	Circle one			
	Yes	Med	Low	No
1. Proposal demonstrates the project proponent/organization has the qualifications, experience, and capacity to perform the proposed tasks (including subcontractors). Yes = Appropriate level of expertise and/or successfully completed previously funded grants, Med = lacks some expertise, some problems with successful completion of previously funded projects, and/or named subcontractors not appropriate for work, Low = lacks a lot of expertise and/or many problems with successful completion of previously funded projects, No = unqualified, problematic subcontractors, persistent problems with completing funded grants, and/or uncooperative.	0	-0.5	-1	-5
2. Project description includes required details necessary to write a statement of work for the grant agreement. Yes = narrative clear and comprehensive, Med = some clarity needed on activities to be done, Low = Activities proposed are inadequately described and more clarity needed, No = narrative general and/or a list of activities with no detail.	0	-1	-2	-5
3. Project budget is appropriate to the work proposed, is cost effective, and sufficiently detailed to describe project costs. Yes = budget is detailed, accurate, appropriate, and cost effective, Med = some budget detail is needed, a few inaccuracies, and 1 or 2 unspecified lump sums, Low = more than 2 unspecified lump sums, lacks detail, many inaccuracies, and/or includes inappropriate costs, No = Many unspecified lump sums, insufficient detail, inaccurate, and/or not cost effective.	0	-1	-2	-5
4. Supplemental information is sufficient as described in PSN Part V & VI. Yes = all supplemental information is sufficient, Low = one or more pieces of supplemental information are insufficient, No = all supplemental information is insufficient.	0		-1	-2
5. Actions, instruction and/or training is focused on fish habitat, watershed, and anadromous fishery protection.	0			DNF
6. Project focuses on one or more of the following watershed and anadromous fishery protection issues: 1) monitoring of activities which could cause water pollution, 2) poaching or over fishing, 3) evaluation of water rights issue or, 4) enhancing public education outreach programs which serve to protect anadromous species and their habitat. Yes = Proposal fully addresses issue; Med = addresses most aspects of the issue; Low = addresses some aspects of the issue; DNF = proposal does not sufficiently address the issue.	0	-0.5	-1	DNF

7. Where the training may result in development of directed enforcement and protection, the proposal: Yes = clearly identifies the desired results for anadromous fish species or habitat conditions; Med = has some ambiguity in desired results; Low = provides limited, desired results; No = Provides no desired results.	0	-1	-2	DNF
8. Proposals that train enforcement, legal, or regulatory personnel: Yes = clearly identify and provide a sound verification procedure to assure that project personnel are being used efficiently and are accountable; Med = provide for an adequate level of verification; Low = provide limited verification; DNF = provide no verification and assurance.	0	-0.5	-1.5	DNF
9. The proposal will result in public awareness of watershed and fishery resource protection principals and will continue to serve as a positive reinforcement for protection actions which support watershed and resource stewardship: Yes = clear links to fish or habitat protection; Med = general links; Low = vague links; No = no links.	0	-1	-2	-3
10. Where proposals target or include a public education element to the training, the project 1) promotes personal or community responsibility for watershed stewardship, 2) the protection of salmonid resources and, 3) the effects of personal and others actions: Yes = training element is clear and thorough; Med = element is general but includes all three aspects; Low = element lacks one of the aspects; No = element lacks two or all of the elements.	0	-1	-2	-3
11. Project personnel and procedures comply with current State law enforcement requirements ¹ .	0			DNF
12. Level of matching funds and resources. (from matrix)				

Final Score (lowest score possible = 0): _____

¹ CDFW Law Enforcement staff will be assigned to Review Team to evaluate these proposals and will be singly responsible for interpreting this criterion.

FRGP Fish Passage at Stream Crossings (FP)

	Circle one			
	Yes	Med	Low	No
1. Proposal demonstrates the project proponent/organization has the qualifications, experience, and capacity to perform the proposed tasks (including subcontracts). Yes = Appropriate level of expertise and/or successfully completed previously funded grants, Med = lacks some expertise, some problems with successful completion of previously funded projects, and/or named subcontractors not appropriate for work, Low = lacks a lot of expertise and/or many problems with successful completion of previously funded projects, No = unqualified, problematic subcontractors, persistent problems with completing funded grants, and/or uncooperative.	0	-0.5	-1	-5
2. Project description includes required details necessary to write a statement of work for the grant agreement. Yes = narrative clear and comprehensive, Med = some clarity needed on activities to be done, Low = Activities proposed are inadequately described and more clarity needed, No = narrative general and/or a list of activities with no detail.	0	-1	-2	-5
3. Project budget is appropriate to the work proposed, is cost effective, and sufficiently detailed to describe project costs. Yes = budget is detailed, accurate, appropriate, and cost effective, Med = some budget detail is needed, a few inaccuracies, and 1 or 2 unspecified lump sums, Low = more than 2 unspecified lump sums, lacks detail, many inaccuracies, and/or includes inappropriate costs, No = Many unspecified lump sums, insufficient detail, inaccurate, and/or not cost effective.	0	-1	-2	-5
4. Supplemental information is sufficient as described in PSN Part V & VI. Yes = all supplemental information is sufficient, Low = one or more pieces of supplemental information are insufficient, No = all supplemental information is insufficient.	0		-1	-2
5. If road treatments are proposed, they will reduce sediment delivery to stream channels through; Yes = permanent de-commissioning only; Med = permanent de-commissioning and storm-proofing; Low = temporary de-commissioning or storm-proofing only; No = none of the above.	0	-0.5	-1	-5
6. Upslope limiting factors, have been identified within the watershed (Water Quality, Riparian Dysfunction, Excessive Sediment, Spawning gravel quality, etc) as a priority based in: Yes = complete watershed assessment; Med = habitat inventory report or equivalent; Low = reach level survey; No = no plan/survey.	0	-0.25	-1	-2
7. Extent to which the proposed project implements the high and medium priority upslope restoration recommendations from the plan to reduce sediment delivery to the stream for the identified reach/sub-watershed. Yes \geq 75%; No = <75%.	0			-2

	Circle one			
	Yes	Med	Low	No
8. If LWD is generated by the project, is it being used at another restoration site? Not generated or Yes = 0, No = -0.5.	0			-0.5
9. Priority criteria: Yes = Project treats all riparian roads, Med = riparian and mid-slope roads, Low = all mid-slope roads, No = ridge roads.	0	-0.5	-1	-5
10. Yes = Sediment prevented from delivery primarily to a class I watercourse, Med = class II watercourse, Low = class III watercourse, No = class IV watercourse.	0	-0.5	-1	-5
Field Level Review – Technique, location, application				
11. Field review conducted; if no, explain in comments.	0			-5
12. The project will utilize CDFW acceptable techniques as described in the manual or approved by CDFW/NOAA engineers. Yes = described in manual, Med = not in manual but approved by CDFW/NOAA engineers, No = not in manual or approved by engineers.	0	-0.5		-5
13. The problems have been adequately identified and the techniques, size and type of materials proposed are appropriate for the watershed/sub watershed/land management area (according to Chapter X). Yes = all; No = none.	0			-5
14. Level of cost share (from matrix).				
15. Coho Salmon/Steelhead Specialist Technical Review results.

Initial score is 5. Points are deducted when the proposed project does not correspond to or meet the intent of the PSN. Final score range: 5 (High) to 0.

	Circle one			
	Yes	Med	Low	No
1. Proposal demonstrates that the project proponent/organization has the qualifications, experience, and capacity to perform the proposed tasks (including subcontracts). Yes = Appropriate level of expertise and/or successfully completed previously funded grants, Med = lacks some expertise, some problems with successful completion of previously funded projects, and/or named subcontractors not appropriate for work, Low = lacks a lot of expertise and/or many problems with successful completion of previously funded projects, No = unqualified, problematic subcontractors, persistent problems with completing funded grants, and/or uncooperative.	0	-0.5	-1	DNF
2. Project description includes required details necessary to write a statement of work for the grant agreement. Yes = narrative clear and comprehensive, Med = some clarity needed on activities to be done, Low = Activities proposed are inadequately described and more clarity needed, No = narrative general and/or a list of activities with no detail.	0	-0.5	-2	-5
3. Project budget is appropriate to the work proposed, is cost effective, and sufficiently detailed to describe project costs. Yes = budget is detailed, accurate, appropriate, and cost effective, Med = some budget detail is needed, a few inaccuracies, and 1 or 2 unspecified lump sums, Low = more than 2 unspecified lump sums, lacks detail, many inaccuracies, and/or includes inappropriate costs, No = Many unspecified lump sums, insufficient detail, inaccurate, and/or not cost effective.	0	-1	-2	-5
4. Supplemental information is sufficient as described in PSN Part V & VI, including QA/QC plan. Yes = all supplemental information is sufficient, Med = one element is insufficient, Low = one or more pieces of supplemental information are insufficient, No = all supplemental information is insufficient.	0	-1	-2	DNF
5. Yes = The project monitoring goals are clearly defined and objectives are quantifiable with proposed study design, Med = one element does not meet this standard, Low = two elements do not meet this standard, Do Not Fund = more then two element do not meet this standard.	0	-1	-2	DNF
6. For MD: The project will employ study design, sampling scheme, protocols and analysis as described in Fish Bulletin 180. Yes = study designs as in Bulletin 180, Med = study designs not in Fish Bulletin 180 but from other scientifically valid plan and its use fully explained; Do Not Fund = study design not scientifically valid or appropriate.	0	-1		DNF

7. For MO ² : The project will employ scientifically accepted study design, sampling scheme, protocols and analysis as described in published, monitoring plans for Pacific salmonids. Yes = As described in published monitoring plans for Pacific salmon and appropriate to the application; Med = protocols not published but determined to be scientifically appropriate; Do Not Fund = not valid or acceptable.	0	-1		DNF
8. ³ (a) For existing monitoring projects: Yes = Grantee has delivered all data, analyses and reports related to past and open monitoring grants to CDFW; Med = grantee is in process of submitting final data, analyses, or report from its previous completed closed grant with CDFW; Do Not Fund = the grantee has failed in the past to deliver data, analyses and reports required under previous grants; (b) For new monitoring projects: Not Applicable.	0	-1		DNF
9. For new monitoring proposals, the application includes an example of previous work that demonstrates ability to summarize, and analyze/interpret data appropriate to project proposed. Yes = applicant or partners demonstrate ability to summarize and analyze/interpret data; Med = applicant or partners demonstrate ability to summarize, but analysis/interpretation is not well demonstrated; No = applicant or partners do not demonstrate their ability.	0	-1		DNF
10. If extended monitoring is needed, the proposal presents a long-term plan for funding with end date and plan for reducing costs and/or development of partnerships to secure adequate funding. Yes = long-term plan included with all required information, Med = a partial plan was included with 1 item of required information missing; Low = 2-3 items of required information missing; Do Not Fund = No long term plan was included.	0	-0.5	-1	DNF
11. Level of cost share (from matrix).				
12. Coho Salmon/Steelhead Specialist Technical Review results.				

Final Score (lowest score possible = 0): _____

² Criterion 7: For validation monitoring [fish response], ratings refer to Duffy et al. 2006. For habitat response, there is no single, best document for following design, sampling, protocols, or analyses.

³ Criterion 8: Past Grantees: For YES, application includes a copy of the latest full final report which includes data summary, analysis, and interpretation; for MED, application includes letter from CDFW Regional Office that final report is expected by a particular date.

	Yes	Med	Low	No
7. Project provides training or technical education focusing on one or more of the following watershed and anadromous fishery conservation issues: fish passage improvement projects; conservation easement and other incentive programs; protecting and improving water quality and quantity; education needed to further regional/county efforts; development of a scientific framework for future funding years; educational demonstration projects; engineering design work, road surfacing and associated activities; research that advances the science of anadromous fish recovery and results in recommendations; monitoring; permanent easement or fee title to riparian buffer strips along coastal rivers and streams that results in the protection of key salmon and steelhead refugia; upslope projects (i.e. erosion prevention and control projects, remediation); protection of key and refugia watersheds; protection and restoration of riparian corridors; assessment projects that will result in prescriptions; TMDL implementation plans (e.g. ranch plans); instream habitat restoration projects; restoration focused artificial propagation.	0			-5
8. Project is a collaboration involving non-profit, for-profit, or public entities.	0			-0.5
9. Includes an evaluation plan, including pre-and post-testing and pre-and post-attendee surveys, performance standards, or an assessment rubric.	0			-5
10. Project addresses needs of the local watershed.	0	-0.5	-1	-1.5
11. Project promotes personal responsibility for watershed stewardship with the goal of having landowners, resource professionals, restorationists, and communities better understand the salmonid resource and the effect of their own and others actions.	0	-0.5	-1	-1.5
12. Project directly supports local salmonid habitat restoration and recovery efforts.	0	-0.5	-1	-1.5
13. Project demonstrates local area stakeholder support.	0			-1
14. Level of cost share (from matrix).

Final Score (lowest score possible = 0): _____

FRGP Water Conservation Measures (WC)

Proposal #: _____ Region: _____ Reviewer: _____ Date: ___/___/___

Proposal Name: _____

Scientific and Technical Review

Initial score is 5. Points are deducted when the proposed project does not correspond to or meet the intent of the PSN. Final score range: 5 (High) to 0.

	Circle one			
	Yes	Med	Low	No
1. Proposal demonstrates that the project proponent/organization has the qualifications, experience, and capacity to perform the proposed tasks (including subcontracts). Yes = Appropriate level of expertise and/or successfully completed previously funded grants, Med = lacks some expertise, some problems with successful completion of previously funded projects, and/or named subcontractors not appropriate for work, Low = lacks a lot of expertise and/or many problems with successful completion of previously funded projects, No = unqualified, problematic subcontractors, persistent problems with completing funded grants, and/or uncooperative.	0	-0.5	-1	-5
2. Project description includes required details necessary to write a statement of work for the grant agreement. Yes = narrative clear and comprehensive, Med = some clarity needed on activities to be done, Low = Activities proposed are inadequately described and more clarity needed, No = narrative general and/or a list of activities with no detail.	0	-1	-2	-5
3. Project budget is appropriate to the work proposed, is cost effective, and sufficiently detailed to describe project costs. Yes = budget is detailed, accurate, appropriate, and cost effective, Med = some budget detail is needed, a few inaccuracies, and 1 or 2 unspecified lump sums, Low = more than 2 unspecified lump sums, lacks detail, many inaccuracies, and/or includes inappropriate costs, No = Many unspecified lump sums, insufficient detail, inaccurate, and/or not cost effective.	0	-1	-2	-5
4. Supplemental information is sufficient as described in PSN Part V & VI. Yes = all supplemental information is sufficient, Low = one or more pieces of supplemental information are insufficient, No = all supplemental information is insufficient.	0		-1	-2
5. Field review conducted; if no, explain in comments.	0			-5
6. Included is a copy of the fee title appropriated or adjudicated water ownership title, deed, or other document that demonstrates the validity of ownership for the water rights being proposed or modified.	0			-5

	Circle one			
	Yes	Med	Low	No
7. If the project will utilize Chapter 10, Section 1707 of the California Water Code to dedicate the water conserved does the proposal describe how the 1707 dedication process will be accomplished as part of this project, including the data needed to apply for and successfully complete the transaction with the SWRCB (and the court if the dedicated water right has been adjudicated), how these data will be developed, the time line estimated for the dedication process, and planned for a consultation/coordination meeting with the SWRCB, and the CDFW Water Rights Coordinator in the region where the dedication will occur?	0			DNF
8. <u>For water conservation projects that utilize forbearance agreements or instream flow leases:</u> does the proposal describe the local organization that will be responsible for developing the agreement and/or lease, and its experience and organizational capacity to develop such agreements and to coordinate post-project water monitoring and water use in the watershed.	0			DNF
9. A survey on the target stream substantiates the quality and quantity of the habitat. Yes = Good; Med = Fair; Low = Poor; No = unknown.	0	-0.5	-1	-5
10. Reduced water quality or quantity from water extraction or tailwater documented by, and determined to be, degrading to salmonid habitat by a qualified biologist/hydrologist.	0			-2
11. Water saved or returned to the stream from the project will be available during the times of year when it will provide the greatest benefit to salmonid habitat. Yes = provides greatest benefit to salmonids, Med = provides some benefit to salmonids, No = provides no benefit to salmonids.	0	-1		-2
12. Water losses and potential savings realized through project implementation, identified by a qualified hydrologist.	0			-2
13. Project or diversion will be implemented and operated using BMP's approved by CDFW and/or NOAA Fisheries and in compliance with water rights regulations.	0			-2
14. Project will reduce tailwater generation through improved irrigation systems or assist in recovery and reuse of tailwater, to prevent discharge of tailwater to stream. (Not applicable = Yes.)	0			-2
15. Tailwater system protected from storm/high water events.	0			-1
16. Level of cost share (from matrix).

15. Coho Salmon/Steelhead Specialist Technical Review results.				

Final Score (lowest score possible = 0): _____

FRGP California Coastal Salmonid Restoration Grants Peer Review Committee (PRC)

Proposal#: _____ Region: _____ Reviewer: _____ Date: ___/___/___

Proposal Name: _____

PRC Review

The PRC evaluates and scores each proposal based on the following criteria. Each criterion below is worth a maximum of one point. Points are added to achieve a final score. Maximum final score is 5, lowest score is 0.

Criteria	Maximum score of 1 point (fractions allowed)
1. Benefit to Species. The proposal addresses a recovery or restoration need documented for the target species, age-class, and location (site, reach, watershed, and/or population) and the beneficial response of fish will be maintained over a reasonable if not permanent duration.	
2. Technical Merit. The write-up is sufficient for reviewers to fully understand and evaluate the technical merits of the project (project plans, designs with specific sites, activities identified). Objectives, approach, and scope of work are clear and technically sound; the project both feasible and appropriate for the site and can be completed on schedule given reasonably foreseeable constraints (weather conditions, planting seasons, operational conditions).	
3. Cost Effectiveness. The budget details identify unit costs, hourly rates, and line items, indirect charges do not exceed 20% percent, and the project is cost effective (total cost, market rate). The proposal identifies cost share source(s) (federal, state, other), type (cash, in-kind), the status of the cost share (secured, pending [if pending, the date a decision is expected to be made]), and the dollar amount/percent share of total cost.	
4. Community and Partner Involvement. There is demonstrated local area stakeholder support for the project (number, diversity of partners, contact information/letters demonstrating involvement). The project will be coordinated with local agencies and stakeholders.	
5. Organization Qualifications. The project manager, principal investigator(s), and other key personnel have experience and expertise required for the project, and individual roles and responsibilities are well defined and appropriate. The proposal demonstrates relevant field experience, completed projects, published reports, or other materials. When necessary, licensed professionals are identified for design, construction, or oversight of on-the-ground activities. Subcontractor selection and roles are clearly explained and justified.
