

SURVEY FILE

SHOWERS LAKE, El Dorado County

August 17, 1953

In a tour around the lake, no rough fish were seen that could be identified as such. Reports are that it has consistently been a good fish producer. One fisherman on the lake made the following catch of EB in six hours of fishing: 7.0", 8.5", 8.5", 9.0", 9.0", 9.5", 9.5", 9.25", 9.75", 11.75", 12.25". All of the fish were in good condition.

Not recommended for chemical treatment this year.
