

STATE OF CALIFORNIA
DEPARTMENT OF FISH AND GAME
INTRAOFFICE CORRESPONDENCE

DATE: August 3, 1960

TO: File Reference

FROM: Almo J. Cordone

SUBJECT: Sopiago Creek Field Hearing

Talked to Lee Carter of the State Water Rights Board, on August 2.

The field inspection on June 17 was, in effect, a field hearing. Carter wanted our flow recommendations so that a decision could be rendered.

We recommended a minimum fish release of two cubic feet per second or the natural flow during normal years and one cubic foot per second or the natural flow during dry years.

Almo J. Cordone
Fisheries Manager II
