Owner of land bordering on stream or lake, with description and title of ownership: Hassler Estate - complete

ownership - all of stream section to be planted is open to the public. (All of So. Canyon Creek is open to fishing)

Under Section 1047 of the Fish and Game Code a permit for the above purposes may be granted under terms adopted by the Fish and Game Commission. These terms are as follows: "One third of the waters bordering upon or passing through the above described property which is owned by the applicant shall be open to public fishing and suitable access to them shall be provided by the owner during the open season for fishing. The location of such open waters shall be determined by mutual agreement between the owner and the Fish and Game Commission and described in the permit. The portion of the stream or lake which is open to public fishing shall at all times be freely accessible to fish planted or native in the closed portion of the waters. If this is not possible due to falls or other obstructions one third of the total number of fish planted under this permit shall be planted in that portion of the stream open to public fishing. A separate permit is required for each separate stream or lake or non-contiguous portion thereof. Each permit will be good until revoked by the Commission and this can be done on 30 days notice."

Under Section 1044 of the Fish and Game Code live domestically reared fish may be sold and transported only when accompanied by a permit for that purpose issued by the Commission. All fish must be free from infectious disease before a permit is issued.

I hereby make application for a permit to plant domestically reared fish upon the above terms for the waters described herein.
