California Fish and Game Department
1001 JedSmith Drive
Sacramento, California 95819

Dear Mr. Glading:

Thank you for sending me copies of Eric Gerstung's very fine report on the impact of subdivisions on wildlife in Nevada County.

I also had the pleasure of hearing him speak and show his slides at the Sierra Club's Rural Land Conference June 27. It seems to me imperative that the slides and his live commentary should have the widest possible audience, among the indifferent and unbelievers as well as the concerned. Will it be televised? I also earnestly hope that it will be presented to the Planning Commission and the Board of Supervisors of El Dorado County. The Boise Stumpy Meadows subdivision hearing is scheduled for the morning of Thursday, July 23 before the Planning Commission. It would be stunning if the slides and commentary, tailored to the time limitations imposed, could be presented then. It would also reach some of those subdivision promoters, engorged with the blood of beeves, whose slick arguments are so sympathetically received.

I also hope that it will be presented to the Georgetown Rotary Club (Boise backers) and as part of the entertainment for the Jeepers Jamboree in Georgetown at the end of this month. In this particular warfare, intrepidity is the word.

Sincerely yours,

Teresa Lengyel

Dear Mrs. Lengyel:

In regard to your letter inviting Eric Gerstung to help you out in the Stumpy Meadows Subdivision matter; I have not had an opportunity to check on Eric's schedule, however, I sincerely hope that he can help you out and hope that you and Eric will both accept this as my authorization for cooperation in this and any future matters.

Lots of luck on your endeavors.

Sincerely,
