

File Edson Lake  
Eld Co

Region II  
1001 Jedsmith Drive  
Sacramento, California 95819

June 10, 1971

Mr. Lee Lyon  
P. O. Box 394  
Georgetown, California

Dear Mr. Lyon:

Thank you for your recent letter regarding the planting of catchable trout in Lake Edson. The lake has an allotment of 10,000 rainbow  $7\frac{1}{2}$ - $8\frac{1}{2}$  inches long. The reason the lake has not been planted is that the lake had been spilling and fish would have been lost over the spillway. We will plan a load of catchables for the week of June 13, 1971.

We appreciated your letter and thank you for bringing this to our attention.

Sincerely,

Ben Glading  
Regional Manager

J. Richard, Placerville Dist. Biologist

Plant at upper end of reservoir or away from spillway. Standard procedure at all reservoirs subject to spill.
