Dear Mr. Entzminger:

Al Cordone, the supervisor of our Lake Tahoe fisheries investigation, has several ideas about possible developments of fish facilities in the Taylor Creek area. I believe you discussed this subject with our regional people a couple of months ago. We would like to get together with you again to discuss it further. Would the afternoon of February 19 be satisfactory? If not, could you suggest another day later that week or the following week?

Sincerely,
