Mr. Robert L. Rice
District Ranger
P. O. Box 8465
South Lake Tahoe, California 95705

Dear Mr. Rice:

This is in reply to your letter of May 6, 1969, in regard to the piling at the mouth of Taylor Creek.

In accordance to the terms of the permit, we will plan to remove the piling in June of this year.

Sincerely,

Cut off at ground level. Water at deepest around 4 1/2 ft deep.

Ben Glading
Regional Manager
Region II
RDB:ejs

cc: D. Ward - Dave: Please have the CVH crew remove this piling. Work through the District Ranger's office. I believe McKusick has a chain saw.
G. Geibel

Piling removed August 6, 1969
Chain saw did not work very well under water, it always quit when we got it down around 4ft.
