## Salton Sea National Wildlife Refuge Annual Reports CDROM

---

This CDROM contains image files created from Salton Sea National Wildlife Refuge annual reports from 1939 through 1993 with some gaps. See the table below for a complete listing.

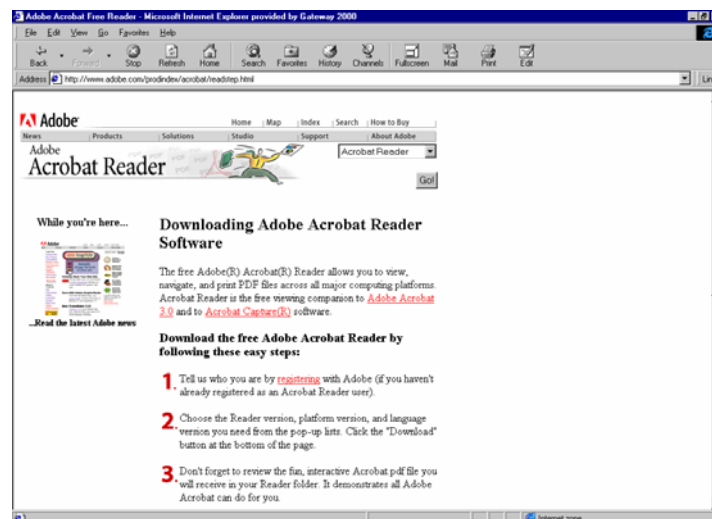

There are three types of files on this CD: tifs, pdfs, and edited pdfs.

The tifs and unedited pdfs are image files. Both sets are included on the CD for increased potential use of the information.

The tif files can be read in many programs. These images can be inserted into documents.

The pdf images are less flexible, but as technology improves it may be possible to use them to create searchable files that can be edited and otherwise manipulated.

The edited, searchable pdfs are the end product files. This is what we had hoped to do with all of the reports. The text of these edited pdf files is quite accurate. There are some problems with the appearance of the documents, however. For that reason the original image pdf files are included on the disc. These files can be read and searched with the Adobe Acrobat Reader. It is available as a free download at <http://www.adobe.com/prodindex/acrobat/readstep.html>.

# File Format Table

This table shows that all reports are available as both .tifs and .pdf image files. It also shows that reports from 1974-1993 are available as edited .pdfs. available as edited .pdfs.
