Telephone No. (optional):	805 434 4106
Email (optional):	relarsen@ucanr.edu

Comments/Issues:

- very important to have certified Range management input for your plans relative to grazing and private lands.
- can't do research with ^{CA} fish & wildlife funds and keep the trust of private landowners because of the requirement to give specific locations and allowing access by CA fish & wildlife.
- need to use recent science for all planning documents.
- very important to have the plan "Peer Reviewed" outside of CA fish & wildlife.

Please use additional sheets if necessary.
