

# ZONE B1

## 2017 General Deer Hunting Information (Includes Additional Hunts A-30 and M-11)

### GENERAL INFORMATION

This information sheet has been prepared to assist deer hunters applying for, or planning to hunt in, Zone B-1 located in Del Norte and portions of Glenn, Humboldt, Lake, Mendocino, Siskiyou and Trinity counties. The following information should be useful to hunters for archery and general seasons as well as any “additional hunts” within this geographic area. For more specific information or additional questions regarding this area, contact the following California Department of Fish and Wildlife (CDFW) office(s):

- **Northern Region Office (Region 1), 601 Locust Street, Redding, CA 96001 (530-225-2300)** encompassing Del Norte, Humboldt, Lassen, Mendocino, Modoc, Shasta, Siskiyou, Tehama and Trinity counties; or
- **North Central Region Office (Region 2), 1701 Nimbus Road, Rancho Cordova, CA 95670 (916-358-2900)** encompassing Alpine, Amador, Butte, Calaveras, Colusa, El Dorado, Glenn, Lake, Nevada, Placer, Plumas, northeastern Sacramento, eastern San Joaquin, Sierra, Sutter, northern Yolo and Yuba counties.

### REGULATIONS

Laws and regulations are designed to conserve wildlife and to provide for an equitable distribution of game mammals. All hunters should read and be familiar with the current hunting regulations available online at: [www.fgc.ca.gov/regulations/current/mammalregs.aspx](http://www.fgc.ca.gov/regulations/current/mammalregs.aspx). Remember, if you are hunting on private property you must obtain, and have in your possession written permission to hunt on private property. Hunter trespass laws are strictly enforced.

### NONLEAD RESTRICTIONS

In April 2015, the Fish and Game Commission adopted CDFW’s proposed regulations, which will implement the nonlead requirement in the following three phases:

# NONLEAD AMMUNITION IMPLEMENTATION

- **Phase 1** – Effective July 1, 2015, nonlead ammunition will be required when taking Nelson bighorn sheep and all wildlife on CDFW lands.
- **Phase 2** – Effective July 1, 2016, nonlead shot will be required when taking upland game birds with a shotgun, except for dove, quail, snipe, and any game birds taken on licensed game bird clubs. In addition, nonlead shot will be required when using a shotgun to take resident small game mammals, furbearing mammals, nongame mammals, nongame birds, and any wildlife for depredation purposes.
- **Phase 3** – Effective July 1, 2019, nonlead ammunition will be required when taking any wildlife with a firearm anywhere in California.

Existing restrictions on the use of lead ammunition in the California condor range remain in effect while implementation proceeds.

For more information including a list of certified non-lead projectiles/ammunition that may be used in firearms for the taking of deer or other big game mammals; a map detailing the non-lead area; and links to other related topics go to the following web address: [www.wildlife.ca.gov/Hunting/Nonlead-Ammunition](http://www.wildlife.ca.gov/Hunting/Nonlead-Ammunition)

## DEER HARVEST REPORTING

### USED AND UNUSED TAGS MUST BE REPORTED

Accurate harvest information is a crucial element in developing population estimates, tag quotas, assessment of current hunt programs, and in the development of new opportunities. Regulations require all deer hunters to submit a harvest report card (online or by mail) to CDFW. Any deer hunter who does not submit a harvest report for each deer tag issued will be required to pay a non-reporting fee upon application for the next hunt season.

Successful hunters are reminded to immediately fill out both portions of the tag and permanently mark the date of kill; record the appropriate "Unit Number" where the deer was killed; attach the tag to the antlers, or ear, if antlerless; have the tag validated and countersigned; and return the completed report card portion.

## WHEN TO REPORT

Successful deer hunters must report the take of a deer within 30 days of harvest or by January 31 – whichever date is first. Unsuccessful deer hunters (including hunters that received a tag but did not hunt) must report that they were unsuccessful or did not hunt by January 31.

## HOW TO SUBMIT A REPORT

- Online – Both successful and unsuccessful hunters are encouraged to submit their harvest reports online. Hunters will be able to report their hunt results online via CDFW's Online License Service at [www.wildlife.ca.gov/tagreporting](http://www.wildlife.ca.gov/tagreporting). Hunters logging into the system will be able to view all of their tags requiring reports. Reporting through the Online License Service is easy, fast and convenient. When you report online, you receive instant confirmation that your harvest report card has been received and accepted. You must record the confirmation number in the space provided on the harvest report card and retain the harvest report card until March 1 of that year. Tags reported online must be surrendered to CDFW upon demand.
- By Mail – Any deer tag holder who does not submit a harvest report for their deer tag online, must return the report card portion to CDFW to the following address: CDFW – Wildlife Branch, PO Box 944209, Sacramento, CA 94299-0002.

## ADDITIONAL DEER HUNTS

There are two additional deer hunting opportunities within Zone B-1: a) Hunt M-11 (Northwestern California Muzzleloading Rifle Buck Hunt); and b) Hunt A-30 (Covelo Archery Buck Hunt). For general maps detailing the individual hunt area boundaries, go to the following link:

[www.wildlife.ca.gov/Hunting/Deer#54774-zones--hunts](http://www.wildlife.ca.gov/Hunting/Deer#54774-zones--hunts)

## OBTAINING DEER TAGS

Beginning in late 2010, CDFW began implementation of the new Automated License Data System (ALDS). Under this computer data system, all licenses, stamps and tags are applied for, and issued through online Point-of-Sale terminals (IPOS) located at various CDFW license offices, over 1,400 license agents statewide or online at [www.wildlife.ca.gov/Licensing](http://www.wildlife.ca.gov/Licensing). Under ALDS much less paperwork is required to apply for, and receive tags. In addition, licenses, tags and entry into the Big Game Drawing can all be accomplished with one trip to a license agent. Once your personal information is entered and stored in the database, the database controls and tracks what you have applied for, or been issued, as well as preference points. For more specific information on ALDS, application procedures and zone/hunt information, check out the current Big Game Hunting Digest available at most CDFW offices and license agents or online at: [www.wildlife.ca.gov/Publications/Hunting-Digest](http://www.wildlife.ca.gov/Publications/Hunting-Digest).

For deer tag distribution purposes, zones and hunts are classified based upon the date in which the zone or hunt tag quota is filled in the prior year. The three tag categories include:

- 1) "**Premium**" zone/hunt tags are only issued through the Big Game Drawing using a First-Deer Tag Drawing Application, except that junior hunters may use their Second-Deer Tag Drawing Application to apply for Apprentice (J) Hunts. Hunters will lose all accumulated deer preference points if drawn for their first choice in the Big Game Drawing.;
- 2) "**Restricted**" zone/hunt tags are available upon application with a First-Deer Tag, or a Second-Deer Tag after August 1.; and
- 3) "**Unrestricted**" zone/hunt tags are available at any time using either a First- or Second-Deer Tag.

For Zone B-1 and associated hunts within the zone, the tag categories are as follows:

- 1) **Premium** Deer Hunts – **M11 and A30**
- 2) **Restricted** Deer Hunts – None

### 3) Unrestricted Deer Hunts – B Zones and Archery Only (AO)

The deer hunting regulations specific to Zone B1 (archery and general season) and any additional hunts are listed at the end of this sheet. To hunt deer in Zone B1, hunters must possess a B Zones deer tag which is valid in any B Zone during the archery or general season using the appropriate method of take. Additionally, Archery Only Tags (AO Tags) are valid during the Zone B-1 archery or general season using archery equipment only.

Typically, tags for additional deer hunts are in high demand and distributed through CDFW's Big Game Drawing held in June. To receive tags for many of these hunts, hunters must plan ahead and apply before the midnight **June 2, 2017 deadline**. Information regarding application procedures and restrictions, ALDS, zone and hunt seasons, prior year drawing and hunt statistics are contained in the 2017 Big Game Hunting Digest available at most CDFW offices, license agents and online at: [www.wildlife.ca.gov/Publications/Hunting-Digest](http://www.wildlife.ca.gov/Publications/Hunting-Digest)

## HARVEST INFORMATION

Information on deer harvest for this area is available in tables contained on the Department's Deer Harvest Data page available on-line [www.wildlife.ca.gov/Hunting/Deer#5477272-harvest-statistics](http://www.wildlife.ca.gov/Hunting/Deer#5477272-harvest-statistics). For the purpose of applying for hunts in a specific area, tables containing harvest success, antler class information, and Big Game Drawing statistics are the most useful in selecting a zone or hunt in which to apply. The harvest tables found on this web page may also contain more recent harvest analyses than information contained in the Big Game Hunting Digest due to the early production deadline dates for the publication.

## LAND OWNERSHIP/PUBLIC LAND OPPORTUNITIES

Zone B1 contains a mixture of both public and private lands. Remember you must obtain and have in your possession written permission to hunt on private property. Hunter trespass laws are strictly enforced. Public lands within the zone are administered by the Klamath, Mendocino, Shasta-Trinity and Six Rivers National Forests (USFS) and the Bureau of Land Management (BLM). For information regarding these lands contact the following:

### USFS Offices:

Klamath National Forest, 1711 South Main Street, Yreka, CA 96097-9549 (530-842-6131)  
Mendocino National Forest, 825 N. Humboldt Avenue, Willows, CA 95988 (530-934-3316)  
Shasta-Trinity National Forest, 3644 Avtech Parkway, Redding, CA 96002 (530-226-2500)  
Six Rivers National Forest, 1330 Bayshore Way, Eureka CA 95501 (707-442-1721)

### BLM Offices:

Arcata Field Office, 1695 Heindon Road, Arcata, California 95521-4573 (707-825-2300)  
Ukiah Field Office, 2550 North State Street, Ukiah, CA 95482 (707-468-4000)

In Zone B1 and other zones throughout California, additional deer hunting opportunities may exist on private property licensed through CDFW's Private Lands Management Program (PLM). For more information on the PLM and to obtain a list of participating ranches, go to the following link: [www.wildlife.ca.gov/Hunting/PLM](http://www.wildlife.ca.gov/Hunting/PLM)

## MAPS

For general maps detailing individual zone or additional deer hunt boundaries, go to the following Department web page: [www.wildlife.ca.gov/Hunting/Deer#54774-zones--hunts](http://www.wildlife.ca.gov/Hunting/Deer#54774-zones--hunts)

The most comprehensive maps of the area are the four National Forest maps. USFS maps are available

locally at most USFS offices; by contacting the USFS Pacific Southwest Regional Office at: 1323 Club Drive, Vallejo, CA 94592 (707-562-8737); or ordered by phone (406-329-3024), fax (406-329-3030), or mail at USDA Forest Service, National Forest Store, P.O Box 8268, Missoula, MT 59807; or on-line at [www.nationalforestmapstore.com/Default.asp](http://www.nationalforestmapstore.com/Default.asp)

BLM surface management maps may also be useful. However, because Zone B1 covers such a large area, several maps are needed to depict it entirely. BLM surface management maps for Zone B1 include the Crescent City, Eureka, Garberville, Happy Camp, Hayfork, Hoopa, Ukiah, and Willows maps. These maps can be purchased at local BLM district offices; the BLM at 2800 Cottage Way, Suite W-1834, Sacramento, CA 95825 (916-978-4400); or order on-line at: [www.blm.gov/ca/st/en/info/iac/maps\\_pubroom](http://www.blm.gov/ca/st/en/info/iac/maps_pubroom)

U.S. Geological Survey (USGS) topographic maps are very helpful, especially for topographic features that are not displayed on USFS or BLM maps. USGS maps may be available from many sporting goods, backpacking or engineering stores; by contacting the USGS directly at: Rocky Mountain Mapping Center, Branch of Information Services, Box 25286, Denver, CO 80225 (888-ASK-USGS); or on-line at: [store.usgs.gov/b2c\\_usgs/b2c/start/\(xcm=r3standardpitrex\\_prd\)/.do](http://store.usgs.gov/b2c_usgs/b2c/start/(xcm=r3standardpitrex_prd)/.do)

## ACCESS/MAJOR ROADS

Although there is a lot of private land in Zone B1, there are extensive tracts of public land with excellent access. Primary roadways in Zone B1 are State Highway 101 (western B1), State Highway 96 (northeastern B1), State Highway 199 (northern B1), State Highway 36 (south-central B1) and Highway 162 (southern B1). Many County, USFS and BLM roads branch off of these primary roadways providing access to public lands.

## WEATHER CONDITIONS/TRAVEL TIPS

The weather in this region is highly variable so BE PREPARED. The weather is usually quite hot and dry, but early storms are not uncommon. Snow fall will be a rare occurrence with these storms but heavy rains can make many roads very difficult, if not impossible, to travel. You should be prepared with appropriate clothing and equipment for a variety of weather conditions.

Zone B1 covers a very large geographic area. The terrain can be very steep and rugged and vegetation can be extremely dense. As you should do in all remote areas, hunters are urged to bring a shovel, a good spare tire, extra water, etc. Use care when operating any vehicle off-road and check with the BLM or USFS for rules and regulations regarding vehicle and travel restrictions in the area. Horses can be useful in some portions of B1, especially in the Board Camp Mountain and Bug Creek Butte area. However, remember that it may be necessary to carry supplemental horse feed into the back country. Contact the local USFS and/or BLM office for more information regarding forage conditions for livestock.

## CAMPING

There are numerous designated campgrounds within Zone B1. The facilities available at these campgrounds vary from primitive campsites to campsites with running water and showers. Most campgrounds are clearly marked on USFS and BLM maps. Camping outside of designated campgrounds is usually permitted on BLM and USFS lands. However, during fire season special regulations may apply, and it will be necessary to obtain a fire permit from the USFS or BLM. You can also check with the California Department of Forestry and Fire Protection office for rules in specific areas.

Please, DO NOT camp or hunt for prolonged periods near water sources important to wildlife and livestock. Remaining for over 30 minutes and within 200 yards of an artificial water source including guzzlers or horizontal wells on public lands within California is a Fish and Game violation (Title 14, Section 730). You can pack water, wildlife can't.

## HERD CONDITIONS AND HABITATS

The deer population in Zone B1 is considered stable. Population trends in some areas are increasing while others are decreasing. Check with the local CDFW office for specific information regarding the area you plan to hunt. As with most deer herds in California and other western states, the long-term population trend has been on a steady decline since the 1960's and 1970's. These long-term declines have been due to land management practices that have precluded fire, resulting in changes toward more mature and less diverse habitats, and reduced quality and quantity of deer habitats. Short-term fluctuations in deer populations are usually attributed to weather events that affect forage production.

The subspecies of deer inhabiting Zone B1 are Columbian black-tailed deer, and are generally considered resident deer. That is, their movement is up and down the slopes, they do not make long seasonal migrations. The deer in this area generally move to higher elevations in late spring and will remain there until the first heavy fall storms force them down below the snow line. This downward movement often occurs during the hunting season, so hunters should be prepared to move to lower areas later in the season after stormy weather.

The vegetation is highly varied throughout Zone B1 ranging from coastal scrub, mixed and montane chaparral, oak-woodland, hardwood-conifer, and dense conifer forests to some alpine habitats. Generally speaking, deer populations in this area respond favorably to vegetation disturbances that enhance brush species (wildfire and timber harvesting). Riparian areas (areas along watercourses), recently burned areas or clear cuts that have re-sprouted with brush are good areas to hunt. Areas where oaks are producing acorns may also attract deer. Typically, lower densities of deer are observed in the more densely forested areas or in older, more decadent brushlands.

## HUNTING TIPS AND WHERE TO LOOK FOR DEER

Successful hunters often spend a considerable amount of time scouting pre-season, locating individual or groups of deer, recently used deer trails, and feeding and bedding areas. You may not see many deer from the roads in this area and generally the more successful hunters do more hiking to locate deer. Binoculars and/or spotting scopes can be very helpful for locating and identifying deer at greater distances. In general, attempt to hunt areas that are away from other activities such as concentrations of hunters, vehicles, and/or livestock.

Historically, some of the more popular and productive deer hunting areas in Zone B1 include:

- **Del Norte County:** Bear Basin, French Hill, Page Mountain, Sanger Peak and Shelly Creek.
- **Humboldt County:** 8 Mile Ridge, Black Lassics, Blake Mountain, Board Camp, Buck Mountain, Grouse Mountain, Larabee Butte, Mad River Rock, Pilot Ridge, Race Track, Snow Camp, South Fork Mountain, Titlow Hill, and Watts Lake.
- **Lake County:** areas in the vicinity of Lake Pillsbury and Snow Mountain.
- **Mendocino County:** Anthony Peak, Bald Mountain, Buck Rock, Dos Rios, Etsel Ridge, Grizzly Flat, Howard Lake, Hull Mountain, Indian Dick, Little Doe Ridge, Mendocino Pass, Monkey Rock, San Hedrin Mountain, Snow Mountain and Soldier Ridge.
- **Siskiyou County:** Badger Mountain, Clear Creek, Elk Lake and Valley, Grayback, Grider Ridge, Gun Sight Peak, Lake Mountain, Mill Creek, Poker Flat and Thompson Ridge.

For additional information about deer hunting in California, see CDFW's publication "Guide to Hunting Deer in California" at the following web site, under "Related Information":

[www.wildlife.ca.gov/Hunting/Deer](http://www.wildlife.ca.gov/Hunting/Deer)

\*\*\*\* **GOOD LUCK!** \*\*\*\*
