- a) Estimated harvest numbers from Tables 1-4 and totals may not agree due to rounding.
- b) Archery Only kill is totaled separate and not included within each specific zone.
- c) Unable to calculate B, C and D3-D5 zone success rates due to unknown individual zone effort.
- d) Deer kill in zones South A, D-11, D-13, D-14, D-15, D-16, and D-19 may not be comparable to other years due to various USFS forest closures and fire restrictions from 2000-2009.
- e) Numbers based on deer kill database tag returns as of 3/16/2011.
- f) Regarding lower than normal harvest success: Due to increased base activities and reduced hunting area due to fire, hunting access/opportunity was curtailed by the base.
- g) Regarding low harvest success: Due to early rains and late rice harvest, deer were spread out and mostly on private land.

2010 Preliminary Reported Deer Kill distributed by Zone/Hunt, Sex, Antler Class and Percent by Antler Class (Based on report card returns as of 3-4-2011).
