

# Xantus's Murrelet (Anacapa Island) 200-600 pairs

Estimates are based on best available data from 1994-2002 surveys (HSU & USGS, unpubl. data).  
Survey types: spotlight surveys, at-sea vocalization surveys, nesting habitat assessment,  
nest searches, and at-sea captures.

Map prepared 29 May 2002
