Project Description: (please use a separate page if necessary)
The primary purpose of the Salmon Conservation and Research Facility (SCARF) is to produce Chinook salmon for reintroduction to the San Joaquin River. The SCARF also would serve as a research facility for studies related to Chinook salmon in the San Joaquin River Restoration Program Restoration Area. The SCARF would provide CDFW with the ability to use relatively small numbers of Chinook salmon eggs and juveniles collected from various donor populations to develop a broodstock. The Project also includes: 1) reintroducing Chinook salmon to the Restoration Area (including donor stock collection, broodstock development, and/or direct translocation); 2) managing Chinook salmon runs in the Restoration Area; 3) conducting research and monitoring related to Chinook salmon in the San Joaquin River; and

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Revised 2010
(4) managing and supporting recreation within the Restoration Area.
### Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X". If you have already sent your document to the agency please denote that with an "S".
