JOHN COWAN, ASSOCIATE GAME MANAGER

D. W. KELLEY

*U. Truckee R  
ED*

Dear John:

I have been meaning to write and thank you for helping us out by sending Pete Chase to look over the erosion control project on the Upper Truckee River, El Dorado County.

Because of his knowledge of grading work, and his extreme interest in the project and willingness to help, we have a very good idea of what it would cost to do the grading that we had contemplated. The work is being held up now because a local company is attempting to buy the gravel upon which the fish spawn and use it for construction purposes.

Sincerely,

D. W. Kelley  
Associate Fisheries Biologist  
Region II
