Jack Fraser, Fisheries Management Supervisor. Region II

Artie G. Brown, Fish & Game Warden

Upper Truckie

In regards to the Upper Truckie river for fish planting, from the foot of Luther Pass to the Junction of Hiway #50 the upper Truckie has been posted to no Trespassing. All the small access roads have been blocked by logs, they were done so by logs being placed across the entrance of the roads. The new signs are not like the old ones that were up, the new ones are red in color and read as follows:

PRIVATE PROPERTY

NO

TRESSPASSING

Pennā code 627

signed: Geo. Hanlon

I thought you should know of this before the fish were started to be planted and maybe start to get repercussion from the fishermen and sportsmen.
