Mr. Fred Herbert  
U. S. Department of Agriculture  
Soil Conservation Service  
2020 Milvia Street  
Berkeley, California

Dear Mr. Herbert:

As you know, the Department of Fish and Game has long been an advocate of good soil conservation practices. In this connection we are conducting an experimental program along the Truckee River and have been assisting local Soil Conservation Districts with the fish and wildlife aspects of their local conservation programs.

Under Public Laws 566, 984, and the Agricultural Conservation Practices program we have frequent contact with these Districts and do all we can to encourage good wildlife and soil conservation practices.

We have just received a request for a number of copies of your Bulletin "Soil Conservation Districts, What Are They and How Do They Work", SCS-CI-9, May 1959. Therefore may we request about 125 of these bulletins for distribution to interested parties?

Sincerely

J. C. Fraser, Chief  
Water Project Branch
