TO: Bob Lewis, Pollution Bioanalyst III, Region I

FROM: L. R. Dunham, Pollution Bioanalyst III, Region II

SUBJECT: Return of Gravel Sampling Device

Sometime ago we loaned you our "Wicked Wonder" for sampling dissolved oxygen in spawning gravel. In the near future we plan to use it on a study on the Upper Truckee River. We would like it returned by July 15 if it is in good working condition. If it will require repairs before it can be used, please return it sooner so that we can do whatever is necessary.

L. R. Dunham
Pollution Bioanalyst III
Region II
