Dear Paul:

We recently discussed the extension of the Lake Tahoe airport runway at the Tahoe Area Council Planning Meeting. I noted in the Tahoe Tribune that bids have been let on this job. Since this work could cause a serious problem to Lake Tahoe salmonid spawners, we should like to know as much as possible about the plans of relocation and the type of work to be done by the Harms Brothers in order to cooperate with the contractors as to assure minimum destructive action to the stream during the construction period.

We would appreciate an opportunity to meet with you as soon as possible prior to actual construction so we can make recommendations as to how to preserve the fishery resources.

Thank you for your help.

Sincerely,

*rmh*
