From : **Department of Fish and Game** - Region II
Eric Gerstung

Subject: Notes on Fishing Lower Velma Lake, El Dorado County, July 16 and 18, 1968

Four limits of 9" - 11" EB and RT (about 50 - 50) were landed and released. One 13" brown was also caught. Only one other party on lake both days. Dry fly and spinner both effective. Trout were fairly numerous, but somewhat smaller than in 1965. Few trout smaller than 9 inches were observed.
