Please Deliver to Area Manager. thank you

Dear Area Manager:

For your info. it appears that acid mine discharges are continuing with additional contaminants. The County is also diverting discharges/stormwater across Lands of the U.S.. I Request that this Complaint be investigated and added to the Administrative Record and forwarded to the Administrative Law Judge. I have not recieved a reply to my last inquiry regarding the testing of the discharges and plume from the Union Mine Landfill including their statements concerning addition activities referred to in their letter of December 3, 1997 addressed to me that I have forwarded to your offices. Thank You Steven Proe Happy Holidays
