1982 Warmwater Fish Allotments

Smallmouth Bass

<u>Water</u>	<u>County</u>	<u>Number</u>	<u>Source</u>	<u>Comments</u>
Union Valley Res.	El Dorado	200 adults	Jenkinson	2nd year of 2 for planned introduction

From 200 adults planted in 1981, 18, \$5.00 tags were returned. It is estimated that 36% of the SMB were caught out. In order to establish spawning stocks for 1982 it is recommended that another 200 adults be planted early in the season.
