

CALIFORNIA DIVISION OF FISH AND GAME - SUPPLEMENTARY SHEET

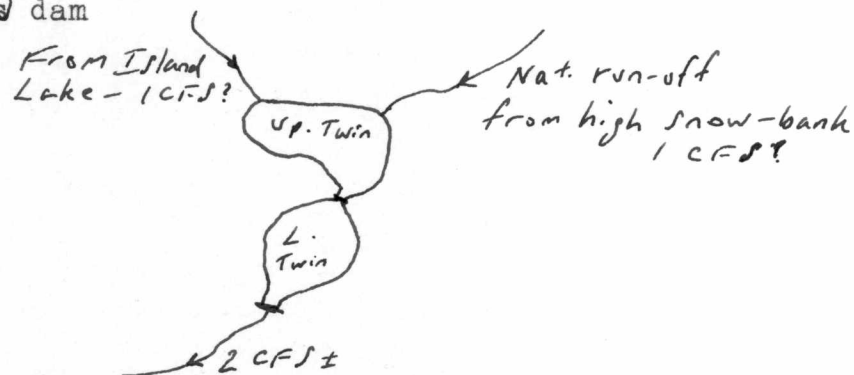

No. \_\_\_\_\_

Name of stream or lake Upper Twin Lake Tributary to \_\_\_\_\_ River system \_\_\_\_\_  
 Other names \_\_\_\_\_ County Eldorado Township \_\_\_\_\_ Range \_\_\_\_\_ Section \_\_\_\_\_  
 Stream section: \_\_\_\_\_ From: \_\_\_\_\_ To: \_\_\_\_\_ Length of stream section: \_\_\_\_\_  
 Sources of data: \_\_\_\_\_

9-6-45 Fair

Much more work needed to raise this lake than Lower Twin, much wider dam.

Overflowing a little but possibly 2 cfs thru dam

Lower Twin ~~over~~ 25 A, more or less, 2 ft on dam would give 50 A ft. kill almost no trees, but dam would be wide.

Rocky basin, very little shoal area, little food.  
 Temp Water, 65°, at shore, 1 PM, air 73°

(Wright's Lake was 65° at 9 am)

Brian Curtis

Note existence of "Emory Lake", a small crevasse pond bet. Island and Up. Twin-- a few fish present, but shallow. Cheap to dam, deepen water, - but dam not to have gate.
