

SAN FELIPE VALLEY WILDLIFE AREA

LOCATION: Approximately 10 miles northeast of the town of Julian between State Highways 78 and 79. County Highway S-2 bisects the length of the wildlife area and provides public access. Current boundaries, temporarily closed areas, restricted zones and regulations are displayed at the information kiosk located on the southwest side of S-2, approximately 11.4 miles east of the junction of Highways S-2 and 79.

ACREAGE: Current Wildlife Area consists of 14,173 acres; portions of the wildlife area temporarily closed.

ACCESS: Off the road along Highway S-2. Enter wildlife area on foot only.

WILDLIFE AREA TYPE: Type C - Not staffed; passive lands management.

HUNTING OPPORTUNITIES: Daily during open seasons for all legal species from September 1 through January 31 and during the spring turkey season when only turkeys may be hunted.

DOG TRAINING: Dog training can only be conducted in the designated training area from September 1 through February 28.

SEASONAL RESTRICTIONS: For deer fawning protection, public access to the wildlife area is restricted from **June 1-August 31**.

OTHER PROHIBITIONS: D16 General Deer Zone Tags may not be used west of Highway S-2. No target, trap, or skeet shooting. No camping, fires, or littering. No removal of vegetation, minerals, or artifacts. Motorized traffic of any kind is prohibited. Designated trails currently do not exist for horse or bicycle use.

Additional information can be obtained from the South Coast Regional Office at (858) 467-4201. For complete regulations regarding wildlife areas, refer to California Code of Regulations, Title 14, Section 550. All regulations can be found on the California Fish and Game Commission website <http://www.fgc.ca.gov/regulations>
