

# California Department of Fish and Wildlife

## Drought Response Implementation Plan (DRIP) Grant Program

### Notice of Intent to Award

August 22, 2014

The California Department of Fish and Wildlife (CDFW) announces its intent to award three payable grant projects that respond to the Governor's [April 2014 Drought Proclamation](#).

These CDFW funded projects will address the effects of extreme drought conditions on Chinook Salmon, currently listed as endangered under both the federal Endangered Species Act (ESA) and the California Endangered Species Act (CESA).

Specifically, these projects will increase the collection of needed broodstock Chinook Salmon during extreme drought conditions, and will also increase passage for salmon to more favorable habitat conditions via fish ladders.

The following table identifies each grant project proposed for award. Funding of these projects is contingent upon approval of the Director and execution of a grant agreement.

Project Number	Project Title	Applicant	Proposed Award Amount	Proposed Project Start Date
D1481035	Design and Installation of Fish Trap in ACID Fish Ladder	U.S. Fish and Wildlife Service	\$195,000	October 1, 2014, or upon CDFW approval.
D1481038	Deer Creek Fish Ladder	U.S. Fish and Wildlife Service	\$465,000	Upon approval.
D1481039	Mill Creek Fish Passage	U.S. Fish and Wildlife Service	\$280,000	Upon approval.
