

# Russian River State Marine Recreational Management Area

North Central California Marine Protected Areas (MPAs), *Established May 2010*

## Site Overview

Photos are representative of the North Central Coast Region and may not be within this MPA.

## What is an MPA?

MPAs are a type of [marine managed area](#) (MMA) where marine or estuarine waters are set aside primarily to protect or conserve marine life and associated habitats. California has a coastal network of 124 protected areas designed to help increase the coherence and effectiveness of protecting the state's marine life, habitats, and ecosystems. The network includes three types of MPA: [state marine reserve](#) (SMR), [state marine conservation area](#) (SMCA), and [state marine park](#) (SMP); one MMA: [state marine recreational management area](#) (SMRMA); and [special closures](#). There are 119 MPAs, 5 MMAs and 15 special closures, each with unique boundaries and regulations in the network. Non-consumptive activities, restoration, and permitted scientific research are allowed.

## What is a SMRMA?

A **SMRMA** is a type of MMA that provides protection equivalent to an MPA. A SMRMA generally prohibits the take of marine resources. (*Area restrictions are defined in [Title 14, Section 632\(a\)\(1\)\(D\)](#)*).

## Russian River SMRMA Overview

- **SMRMA size:** 0.36 square miles
- **Depth range:** 0 to 10 feet
- **Along-shore span (shoreline):** 1.8 miles

## Where is Russian River SMRMA?

## Russian River SMRMA Key Habitats

- **Beaches:** 1.96 miles
- **Coastal marsh:** 2.27 miles
- **Marsh:** 0.04 square miles
- **Estuary:** 0.33 square miles
- **Sand (all depths):** 0.35 square miles

## Boundaries and Regulations

**Boundary:** This area includes the waters below the mean high tide line eastward of the mouth of the Russian River Estuary defined as a line connecting the following two points:

38° 27.160' N. lat. 123° 07.910' W. long.; and  
38° 27.010' N. lat. 123° 07.740' W. long.; and  
westward of the Highway 1 Bridge.

**Only the following take is allowed in Russian River SMRMA:** The recreational hunting of waterfowl is allowed unless otherwise restricted by hunting regulations (sections 502, 550, 551, and 552).

# Russian River State Marine Recreational Management Area

## How and Why Russian River Bay was Chosen for a SMRMA

This SMRMA was designed through a collaborative, regional public process by a cross-interest regional stakeholder group (RSG). Using scientific criteria, public input and local resource knowledge the RSG developed MPA proposals. RSG proposals included specific objectives (why the site should be an MPA-*included below*), the classification (type of MPA), boundaries, and regulations. Final MPA proposals were sent to the California Fish and Game Commission (Commission) for their adoption process. Russian River SMRMA was adopted by the Commission in 2010.

### North Central Coast RSG Specific Objectives for Russian River SMRMA:

- 1.) Protect nursery ground habitat.
- 2.) Protect communities associated with areas of diverse estuarine habitats including open channels, mud flats, eel grass beds, etc. Protects estuary, steelhead, Russian River Chinook & Coho salmon, birds, mammals etc. Protects salmonid resources subject to fishing impacts when balled up at mouth of estuary when closed.

## Species Likely to Benefit from the Establishment of MPAs in California

Species likely to benefit from establishing an MPA are those, whose home range, behavior, reproduction, exploitation rate or population status indicates that they may benefit from spatial management. This includes species that are directly targeted by fisheries, those which are caught incidental to fishing for the target species (bycatch) and which cannot be returned to the water with a high rate of survival, and those which may be indirectly impacted through ecological changes within MPAs.

For a list of species likely to benefit from MPAs statewide: [www.dfg.ca.gov/marine/mpa/species.asp](http://www.dfg.ca.gov/marine/mpa/species.asp)
