Site Name: Bolen Diversion (Previously Odysseus Farms)
Stream Name: Cross Canal
Structure Owner: Unknown
Year Remediated: 2012
Site Type: Diversion
Site Status After Remediation: Not a barrier
Species Benefited After Remediation: Unknown
Immediate Downstream barrier PAD ID:

PAD ID: [700263](#)
Tributary To: Sacramento River
Barrier Remediation By: U.S. Fish and Wildlife Service
Barrier Description Prior to Remediation: Unscreened
Count of Barriers Downstream:
Count of Barriers Upstream:
Distance Upstream to Next Barrier or Limit of Anadromy : mi

*Site statistics based on December 2014 version of the Passage Assessment Database

Notes: This was an unscreened diversion per a field survey in 1994 assessed by CDFW. Per FWS this diverted 14 cfs. This diversion once served Odysseus Farm property. In November 2012, this diversion along with the Northern and Bennett diversions on the Natomas Cross Canal was removed and replaced with a consolidated screened diversion on the Sacramento River at Sankey (PAD ID 758606). At the same time the diversion structures at this location was removed except for the concrete foundations which were left in place to avoid adverse habitat impacts.
