

**CALIFORNIA WILDLIFE HABITAT RELATIONSHIPS SYSTEM
DATABASE QUERY WORKSHEET**

Name: _____ Agency/Company: _____
Project Title: _____ Date: _____

Calculation Method (Habitat Value Comparisons Only): Arithmetic Mean Geometric Mean
Location: _____

CWHR Habitat Types	CWHR Habitat Stages

Habitat Suitability Level (High, Medium, or Low)

If no level is specified, species which find the habitat suitable at any level and for any life requisite will be included.

 Reproduction **Cover** **Feeding**

Element Exclusion Level (Essential, Secondarily-Essential, or Preferred)

If no level is specified, only those species who find an element essential will be excluded when that element is excluded.

 Reproduction **Cover** **Feeding**

Taxonomic Class

If no group is specified, all modeled species will be included in the query.

 Reptiles **Amphibians** **Birds** **Mammals**

 Subgroup (eg: raptors; please specify) _____

Legal Status

*Selecting status is a decision to restrict the query to **only** species with special status. If no status is specified, species with and without status will be considered.*

 Federal Endangered **Federal Threatened** **CA Endangered** **CA Threatened**

 CA Fully-Protected **CA Protected** **CA Species of Special Concern**

 Federally-Proposed Endangered **Federally-Proposed Threatened**

 Federal Candidate **BLM Sensitive** **USFS Sensitive** **CDF Sensitive** **Harvest**

Season in Habitat

If no season is specified, species found in a given habitat at any time of the year will be considered.

 Only Species Present Yearlong **Winter Visitors** **Summer Visitors and Breeders**

 Migrants

Season in Location

If no season is specified, species found in a given location at any time of the year will be considered.

 Only Species Present Yearlong **Winter Visitors** **Summer Visitors and Breeders**

 Migrants
