

# Casino Point State Marine Conservation Area (No-Take)

## Southern California Marine Protected Areas (MPAs), *Established January 2012*

## Site Overview

Photos are representative of the South Coast Region and may not be within this MPA.

## What is an MPA?

MPAs are a type of [marine managed area](#) (MMA) where marine or estuarine waters are set aside primarily to protect or conserve marine life and associated habitats. California has a coastal network of 124 protected areas designed to help increase the coherence and effectiveness of protecting the state's marine life, habitats, and ecosystems. The network includes three types of MPA: [state marine reserve](#) (SMR), [state marine conservation area](#) (SMCA), and [state marine park](#) (SMP); one MMA: [state marine recreational management area](#) (SMRMA); and [special closures](#). There are 119 MPAs, 5 MMAs and 15 special closures, each with unique boundaries and regulations in the network. Non-consumptive activities, restoration, and permitted scientific research are allowed.

## What is an SMCA (No Take)?

An **SMCA (No-Take)** is a type of MPA that protects resources by prohibiting commercial and recreational take while allowing take incidental to the permitted operation and maintenance of artificial structures inside the SMCA.

## Casino Point SMCA (No Take) Overview

- **MPA size:** 0.01 square miles
- **Depth range:** 0 to 73 feet
- **Along-shore span (shoreline):** 0.1 miles

## Casino Point SMCA (No Take) Key Habitats

- **Rocky shores:** 0.05 miles
- **Rock (all depths):** 0.01 square miles

## Where is Casino Point SMCA (No Take)?

## Boundaries and Regulations

**Boundary:** This area is bounded by the mean high tide line and straight lines connecting the following points in the order listed:

- 33° 20.900' N. lat. 118° 19.430' W. long.;
- 33° 20.900' N. lat. 118° 19.420' W. long.;
- 33° 20.920' N. lat. 118° 19.380' W. long.;
- 33° 20.950' N. lat. 118° 19.420' W. long.;
- 33° 20.970' N. lat. 118° 19.470' W. long.;
- 33° 21.000' N. lat. 118° 19.520' W. long.; and
- 33° 20.960' N. lat. 118° 19.560' W. long.

**Only the following take is allowed in Casino Point SMCA:** Take pursuant to maintenance of artificial structures inside the conservation area per any required federal, state and local permits, or as otherwise authorized by the department.

Feeding of fish for marine life viewing is allowed.

# Casino Point State Marine Conservation Area (No-Take)

## How and Why Casino Point was Chosen for an SMCA (No Take)

MPAs were designed through a collaborative, regional public process by a cross-interest regional stakeholder group (RSG). Using scientific criteria, public input and local resource knowledge the RSG developed MPA proposals. RSG proposals included site specific rationale (why the site should be an MPA-*included below*), the classification (type of MPA), boundaries, and regulations. Final MPA proposals were sent to the California Fish and Game Commission (Commission) for their adoption process. Casino Point SMCA (No Take) was adopted by the Commission in 2012.

### **South Coast RSG Identified Rationale for Casino Point SMCA (No Take):**

This SMR has been requested by Catalina Island residents. Designed to meet Goal 3 of MLPA: Protect habitat and fish for non consumptive diver enjoyment. Currently divers in this City of Avalon Dive Park are at risk of injury due to fishing activities allowed to occur in the area. The City of Avalon Dive Park is well known, accepted by the public, and easily identified by buoys and lines maintained by the City of Avalon.

## Species Likely to Benefit from the Establishment of MPAs in California

Species likely to benefit from establishing an MPA are those, whose home range, behavior, reproduction, exploitation rate or population status indicates that they may benefit from spatial management. This includes species that are directly targeted by fisheries, those which are caught incidental to fishing for the target species (bycatch) and which cannot be returned to the water with a high rate of survival, and those which may be indirectly impacted through ecological changes within MPAs.

For a list of species likely to benefit from MPAs statewide: [www.dfg.ca.gov/marine/mpa/species.asp](http://www.dfg.ca.gov/marine/mpa/species.asp)
