POST	FILE						

Gentlemen —

I wish to extend my thanks to your department for stocking Lake Walton several times last fishing season.

This Lake as you know is about five miles above Georgetown and the people of that community surely enjoyed the fishing. I fished there at least ten times and I can say there always was a lot of Georgetown people fishing especially during evening hours. I was happy to see so many young children fishing and enjoying themselves. Recreation of this kind is very helpful to adjust child delinquency as it gives them some thing to do, talk about and creates an interest for both parents and children to spend many helpful hours to-gather.

No doubt your

department is happy to hear  
from citizens who appreciate  
the job you are trying to do  
in planting catchable size  
fish.

The people in this district  
who fish in Lake Walton are  
desirous of continual planting  
of the lake, and will appreciate  
its heavy stocking of catchable  
size fish this fall coming season.

Trusting that you will  
give our community every  
consideration possible and  
again assuring you it affords  
a great deal of pleasure and  
happiness,

Sincerely,  
L. D. Burkholder

Mr. L. D. Bachelder  
Coloma (El Dorado County)  
California

Dear Mr. Bachelder:

Thank you very much for your letter of January 28, 1958, regarding our fisheries management program on Walton Lake near Georgetown. We are happy to advise you that our program for 1958 considers the stocking of catchables in Walton Lake.

We plan to hold our annual fish planting meeting in Placerville in the Veteran's Building on the El Dorado County Fairgrounds, March 5, at 7:30 P.M. These meetings are for the purpose of discussing our fisheries management program with the local sportsmen and other interested parties. In view of your interest in our program we would like very much for you to attend and bring your friends.

Yours very truly,

Allan F. Pollitt  
Fisheries Manager III  
Region II
