

DEPARTMENT OF FISH AND GAME

REGION 2
1701 NIMBUS ROAD, SUITE A
RANCHO CORDOVA, CALIFORNIA 95670
(916) 358-2900

May 9, 1997

Mr. Ron Stockman
Mother Lode Research Center
P.O. Box 4389
Auburn, California 95603

Dear Mr. Stockman:

Thank you for your inquiry regarding amphibian surveys in Webber Creek, Eldorado County. I have enclosed surveys conducted by Mr. John Brode during 1975, during which time Red-legged frogs were found at various locations.

Webber Creek was resurveyed during 1996 and Red-legged frogs were found again. Unfortunately, the Department does not have the original survey forms from the 1996 surveys. These data may be proprietary, so you may wish to contact the consultant that conducted the surveys. Mr. George Hansen was the consultant, and you may reach him by telephone (916) 489-2571.

Sincerely,

A handwritten signature in cursive script that reads "William L. Somer".

William L. Somer
Associate Fisheries Biologist
Wild Trout Management
