April 17, 1984

State Water Resources Control Board
Division of Water Rights
P.O. Box 2000
Sacramento, CA 95810

Attention: Ming-Shyong Yang, Chief
Environmental Section

Subject: Water Rights Application #1692 - Weber Dam (W.O. 2338)

Dear Dr. Yang:

This letter is in response to our telephone discussion of April 16, 1984 and your request for additional information regarding our application for water rights to generate power at the District's existing Weber Dam on Weber Creek.

We have attached a copy of the "Initial Environmental Study", filed with the El Dorado County Clerk's Office on November 10, 1983. This report was filed as a "Categorical Exemption" (Class 28) from CEQA requirements.

Also attached is a copy of the District's application (FERC Project #7454, revised October 14, 1983) which was approved by the Commission on March 23, 1984 as an Exempt Project.

Finally, on April 12, 1984, we wrote Mr. Walsh indicating that the District would agree to the conditions requested by the Department of Fish and Game with respect to their protest to the District's petition to "Change Character of Use for Water Application #1692". A copy of this letter is attached for your information.

Very truly yours,

A handwritten signature in cursive script that reads 'Frederick C. McKain'.

Frederick C. McKain
