Subject: Weber Dam Meeting
Project No. 93002

Dear Mr. Lehr:

This is to verify the Weber Dam meeting on Wednesday, August 7, 1996 at 10:00 a.m. in the Engineering conference room at EID. The purpose of the meeting is to discuss the partial or complete removal of the dam as an alternative to constructing the remedial improvements necessary to stabilize the dam. Input from your agency is critical for us to determine the feasibility of this alternative. We have met with contractors and a restoration consultant to formulate concepts for this alternative. We will discuss these concepts at the meeting.

Please call if you have any questions.

Sincerely,

A handwritten signature in cursive script that reads "Steve Hutchings".
