Regulatory Section (199200287) FJL

El Dorado Irrigation District  
Attn: Mr. David Witter  
2890 Mosquito Road  
Placerville, California 95667

Dear Mr. Witter:

This letter is in response to your request for a wetland delineation on the Bray Reservoir property, located at Section 24, Township 10 North, Range 10 East, in El Dorado County, California.

We have reviewed and verified the wetland delineation map of the Bray Reservoir property that was submitted by Global Environmental on June 23, 1992. This delineation was generated out of a previously submitted wetland delineation map and a site visit on May 29, 1992, with Mr. Jim Monroe of this office. We agree with your delineation that shows that the site contains 2.81 acres of wetlands and 5.09 acres of other waters of the United States, for a total of 7.90 acres of Waters of the United States.

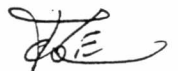

Our jurisdiction in this area is under Section 404 of the Clean Water Act. A Department of the Army Permit is required prior to discharging dredged or fill material into waters of the United States. Accordingly a permit will be required prior to filling any of the waters present on the Bray Reservoir property as identified on the verified wetlands map. The type of permit processing required will depend upon the type and amount of waters which would be lost or substantially adversely modified by fill activities.

This verification is valid for three years from the date of this letter. If you have any questions, please write to Mr. Jim Monroe, Attn: Regulatory Section, at the letterhead address, or telephone (916) 557-5266.

Sincerely,

Handwritten signature of Jim Monroe in black ink, with the name 'JIM MONROE' written in capital letters below the signature.

Tom Coe  
Chief, Regulatory Unit 1

Handwritten signature of Tom Coe in black ink, appearing as a stylized 'TC' followed by a flourish.
