

1956 WRIGHTS LAKE QUESTIONNAIRE RETURNS

The information on the following pages was tabulated from the fishing records returned by the home owners at Wrights and Dark Lakes.

A form letter and a fishing record form were mailed to each of the home owners in the area on July 16, 1956.

Of 79 questionnaires mailed out, 36 were returned, a return of 46 percent. Five of the 36 returns were not included in the tabulation. Three of these indicated no fishing was done, and 2 were incorrectly filled out. Therefore, the information is from a sample of only 31 home owners and their guests and does not include campers or anglers other than those who own homes in the area.

It is probable that in several cases the catch for two or more anglers was included in one entry on the fishing records. This would cause the number of angler-days reported to be lower and the catch per angler-day to be higher than is actually the case.

WRIGHTS LAKE AREA QUESTIONNAIRE DATA

1956

Total - All Four Areas
