To : Survey Files

Date: December 4, 1984

From : Department of Fish and Game
- Region 2

Subject: Heather Lake, El Dorado County

Two mono gill nets were set August 12-13, 1984 for a period of 15-1/2 hours. The nets caught the following fish:

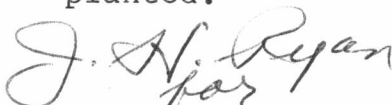

14 BK - 5.5, 6.6, 6.5, 7.0, 7.0, 7.0, 8.0, 8.0, 8.0, 8.5, 10.0, 11.0, 13.0, 13.5 inches

1 BN - 14.0 inches
18 LRS -3-3-1/2 inches

This lake has not been planted in a number of years and all of the fish are from natural reproduction. The fish were in good condition.

The Pine Martin population at this lake has remained stable over a number of years. Several martin ripped off the net caught fish.

The managment of this lake should remain as at present and not be planted.
