SEP 10 1976

Mr. Robert Lassen, Region Manager  
Region II  
Department of Fish and Game  
Jed Smith Drive  
Sacramento, CA 95814

Dear Mr. Lassen:

Highland Lake Dam and Reservoir  
No. 1-31

Mr. Ted Vande Sande of your Department and Field Engineer Tom Patton of this Division inspected Highland Lake Dam on August 26, 1976. In general, the dam is in good condition, but requires some remortaring of the rock in the shallow section towards the left end of the dam and between the outlet and the boulder to the right of the outlet.

Please see that this work is done before the winter season.

Sincerely,

*G. W. Dukleth*

Gordon W. Dukleth  
Division Engineer  
Division of Safety of Dams

To: Ted Vande Sande

On the other side of this paper spell out how many personnel, for how many hours using motor will be required to do this job. Send cc of both sides to Jim Richard  
Jim Ryan  
A. Beland

Thank you

October 6, 1976

Mr. Gordon W. Dukleth  
Division of Safety of Dams  
Department of Water Resources  
P. O. Box 388  
Sacramento, California 95802

Dear Mr. Dukleth:

Repairs to Highland Lake Dam which was inspected by Messrs. Patton of your staff and Vande Sande of ours probably won't be feasible until 1977. Our District Biologist Mr. Richard was in the Desolation Wilderness area recently and experienced hard freezes every night. Based on his many years of experience he believes mortaring would be difficult to set and cure properly under such conditions.

Sincerely,

Mr. Robert Lassen  
Regional Manager  
Region 2  
Department of Fish and Game  
P. O. Box 19176  
Sacramento, CA 95819

Dear Mr. Lassen:

Highland Lake Dam and Reservoir  
No. 1-31

In reply to your letter of October 6, 1976, it will be satisfactory to delay the rock remortaring of Highland Lake Dam described in our letter of September 10, 1976.

Please complete the work next year at your convenience.

Sincerely,

*for*   
Gordon W. Dinkleth  
Division Engineer  
Division of Safety of Dams
