OTHER NAMES RIVER SYSTEM Sacramento

SOURCES OF DATA

"On 8 Aug. 46 this stream was dry where crossed by the Stonyford to Williams road. A farmer living near by stated that it is dry all the way up at this time of year. Wayne Langford at Stonyford stated that there is about a mile of borderline trout water at the headwaters. Probably during wet years there is some water in the creek. No planting is recommended for this stream." From "ASurvey of Stony Creek etc." by Garth I Murphy, Typewritten report 1946
