*TRIB. to SF Stony Cr.
Colusa Co.*

On June 27, 1960, Mr. Walford Malloy, 6525 Holiday Way, North Highlands, informed me that he and two companions had taken limits of trout from Letts Valley Reservoir on June 26, 1960.

These fish each weighed about one pound and were in exceptionally fine condition. "Helgramites" were used for bait and fishing was done from a skiff.
