Dear Mr. Walker:

The Mendocino National Forest is inviting public and interested organizations and agencies to comment on a proposed project on the Stonyford Ranger District. The project is to construct a fishing pier to allow physically challenged people the opportunity to fish at Lett's Lake. Lett's Lake is a small popular lake with adjacent Forest Service fee campgrounds. It is located in T. 17N., R. 8W., Sections 24 and 25, Colusa County, California.

If you are interested in commenting, please direct input to Janet Flanagan, Resource Officer, Stonyford Ranger District, 5080 Lodoga-Stonyford RD., Stonyford, CA., 95979, or call her at (916) 963-3128. Comments should be received by October 3, 1991. Thank you.

Sincerely,

for Douglas Johnson
