County Board of Supervisors
Colusa County
Willows, California

Att'n: Chairman of Board

Dear Sirs:

As you undoubtedly know, the Department of Fish and Game is planning to construct a dam on Upper Letts Meadow to create a 33 acre lake for fishing. The forest service plans to construct and maintain roads, campgrounds, picnic areas, etc.

The Wildlife Conservation Board has allocated funds for the construction of the dam. These funds are for capital outlay only and the Wildlife Board has requested that provision be made for the operation and maintenance of the dam.

Although we do not anticipate any maintenance problems, we would like to know if the County would agree to take over this phase of the project.

We would like to discuss this project with the Board of Supervisors, and would appreciate it if you would let us know when the next regular meeting will be and if we might meet with you at that time.

Yours very truly,

George H. Warner
Fisheries Management Supervisor
