Dick Laursen - Game Warden
Calif. Dept. Fish & Game
1627 Wescott Road
Colusa, California

Dear Dick:

Refer your letter to Inspector Hooker April 27, 1962 carbon copy sent to U.S. Forest Service.

The spillway was completed at Letts Lake April 25, 1962. The overflow from the lake was put into the new spillway April 30, 1962, and the old spillway was plugged with compacted earth.

This should solve the erosion and stream situation problem caused by Letts Lake.

Very truly yours,

JOHN W. TORVINEN
District Ranger

Dictated by District Ranger but signed in his absence to avoid delay.

By *M. Langford* Acting

Ken

Here is the final report concerning the siltation on South Fork Stony Creek arising from the Letts Lake spillway problem.

Dick
