Dear Sir:

I am writing in regards to the new Letts Valley Dam in Colusa County and I understand that only fingerling trout are to be planted this year. It has taken us long enough to get this recreation area, why loose the use of it for another year? Let's have some catchable size fish planted along with the fingerling. I believe that the fishermen in this area are entitled to them.

Sincerely yours,

H. E. Hardcastle

Willows, California

P.S. I had the pleasure of fishing in the Plaskett Meadow Lakes last summer and was fine fishing. Congratulations.

Willows, California

Dear Mr. Hardcastle:

Thank you for the suggestions concerning Letts Valley Lake and for the nice comments about Plaskett Meadows.

Our present plan is to stock enough large trout in Letts Valley Lake to provide fishing next summer. Subsequently, we will plant fingerlings.

Sincerely yours,

Seth Gordon
