Sacramento, California

Gentlemen:

Due to the need for more test drilling and completion of engineering surveys and dam specifications on the Lower Letts Reservoir, it will be necessary to amend Clause 2 of your Special Use Permit.

Accordingly, this letter is for such purpose. Clause 2 is hereby amended to read:

Construction or occupancy and use under this permit shall begin within 6 months, and construction, if any, shall be completed within 18 months after receipt of approved engineering surveys and specifications.

As our letter of 12/15/65 indicated, there are problems in completing the additional drilling, survey and specification work. Flood damage repair and other projects are currently taking all available finances and manpower.

Sincerely yours,

WILLIAM ANDERSON  
Recreation and Lands  
Officer
