SUBJECT: Letts Valley Dam -- Wildlife Conservation Board Project -- Mendocino National Forest

The special use permit with the U.S. Forest Service covering our proposed use of the Letts Valley site for the purpose of constructing, operating and maintaining a dam and spillway has been submitted to the Department of Finance.

It is our understanding Region 2 made the initial contacts with respect to this project with the Forest Service. We are, therefore, assuming you also were assured by either the Forest Service or the particular county concerned as to operation and maintenance of this project.

We would appreciate your handling the necessary negotiation and transmit to this office a suitable operating agreement for maintenance, etc., of this project.
