

STATE OF CALIFORNIA
DEPARTMENT OF FISH AND GAME
INTRAOFFICE CORRESPONDENCE

Stony Creek
Colusa Co.

DATE June 10, 1954

TO: Jack C. Fraser, Fisheries Management Supervisor - Region II

FROM: Wm. C. Johnson, Jr. Aquatic Biologist - Region III

SUBJECT: Fish Ladder

RECEIVED
JUN 11 1954
DEPT. FISH & GAME
Region II

It has been reported to this office by an angler that the fish ladder on Stony Creek, three miles above Stonyford, Colusa County, is inoperative.

We feel you are aware of the situation, but assured the angler that we would call your attention to this condition as he reported fish were trying to use it early this spring, but were unable to negotiate it.

W.C. Johnson
Wm. C. Johnson
Jr. Aquatic Biologist
Region III

WCJ:fo

The fish ladder on Rainbow Dam has been inoperative for over 10 years. There is no need for it as there are no migratory fish in Stony Creek, ^{in this area} since the construction of Stony Gorge Dam. JD.
