**DEPARTMENT OF FISH AND GAME**  
INTRAOFFICE CORRESPONDENCE

DATE November 14, 1958.

TO: Allan F. Pollitt, FM III

FROM: Darrah Springs Hatchery  
Harold E. Roberts, FM II

SUBJECT: Correction to Planting Receipts

I do not find any correspondence on corrections to the mentioned receipts No. 274 and 275. However our copies do show a correction from 4.6 per lb. to 4 per lb. and not hearing about it before this, presumed it had been made the same on your copies.

Although at 4 per lb., 375 lbs. would be 1500 fish, all other records such as Daily Record of Fish Shipped, Fish Planted by Counties, and Annual Report, only show pounds and numbers of fish without size.

I suggest that the only solution is to have the receipt show 4 per lb. 375 lbs. 1495 fish even tho this is an error of 5 fish. Any other change would involve all these other records in various offices, where they have no file of the planting receipts.

Sorry the error was made, and we'll try to stop any others in the future.

*Harold E. Roberts*
