Glenn-Colusa Fish Screen O&M Cost Sharing

In accordance with the agreement between the State and the GCID dated 5-16-68, normal cost of maintenance and operation of the Glenn-Colusa screen is to be shared equally between the two parties. Each entity is to bill the other on a quarterly basis for materials, labor and other costs, as stipulated by the agreement, which were incurred during the quarter. To my knowledge the District has done this since the screen first began operation in May of 1972.

As of the present, the Department has never billed the District for their share of the costs but plan to begin doing so for the final quarter of the 1981-82 fiscal year and continue each quarter thereafter.

The GCID has been notified of the Department's intentions and are awaiting receipt of the first statement of costs early in July 1982.
