

Memorandum

To : Deputy Director Fletcher
Assistant Deputy Director, Operations

Date: November 13, 1984

Get to HQ by Dec 24

+ sent note to R²

From : Department of Fish and Game - Anadromous Fisheries Branch

Subject: Funding for Glenn-Colusa Screens

In a recent briefing for the Director on the problems at Glenn-Colusa Screens, he gave me an assignment to locate a source of funds to make the subject screen operative again. Region 2 was to develop an estimate of costs and do preliminary planning and design.

I recommend that Region 2 prepare a request to the Wildlife Conservation Board for funding. I understand that the Board has set aside \$200,000 to repair or build fish screens and ladders. It is my understanding that the money will be available in 1984-85 fiscal year probably after January 1.
