Dear Sirs:

I am writing this letter regarding the Glenn-Colusa Irrigation District in their cooperation in working with the Department of Fish and Game. I am a land owner in the District.

I feel the full responsibility for the construction, operation and maintenance of the fish screen is your responsibility and not the legal or contractual responsibility of the District or its' landowners. Threatening the Districts' ability to dredge and divert its' water supply is wrong.

It is my desire that you will give your full attention to this matter and place the burden to resolve this matter with your department.

Thank you in advance.

Sincerely yours,

*Helen E. Britt*

Dear Ms. Britt:

Thank you for making us aware of your views on the dredging permit the Glenn Colusa Irrigation District has requested.

We are and have been working closely with the Corps, GCID, U.S. Fish and Wildlife Service, National Marine Fisheries Service, and the Environmental Protection Agency to find a workable solution to this problem. I am optimistic in my belief that an acceptable solution will be found. I believe GCID is also.

Sincerely,
